

Gentlemen:

I am angered by attempts of others to undermine the Wisconsin No Call List. Frankly, I have appreciated NOT having my privacy intruded upon for the last year or so. Just recently, I received my first telemarketing call on my cell phone . . . and I'm on the federal list!! These intrusions are no different than door to door solicitors . . . and, thankfully, local communities have control over that. WHEN WILL IT STOP!!!!

Keep these people OUT OF MY HOME!! Who is it you are working for?!

Sincerely,

Paul Mueller
